VOL XXVII, NO. 21

THE BLAIRMORE ENTERPRISE, FRIDAY, MAY 29, 1936.

\$2.00 PER ANNUM.

COLE'S BELLEVUE

TONIGHT and SATURDAY

The singing stars of "Naughty Marietta" now lift their golden voices... live their enchanting romance... in the most stirring musical of our time! How you'll thrill as Rose Marie flees from a world of conventions to the arms of a "Mountie" whose name she scarcely knew... but whose caresses make the language of love. Hear them singing "Indian Love Call," "Rose Marie" and "Song of the Mounties."

Jeanette MacDonald and Nelson Eddy, in

HARRY RICHMAN and ROCHELLE HUDSON

The Music Goes Round

Rev. Robert Magowan, B.A., of Calgary, has accepted the pastorate of the United Church at Pincher Creek, succeeding Rev. N. W. Whitmore, who leaves for Olds in July.

BISHOP OF CALGARY VISITS BLAIRMORE

His Lordship Bishop Frances P. Carroll paid his first official visit to Blairmore on Sunday last, and conferred the Sacrament of Confirmation upon a class of over fifty children and adults at St. Anne's church.

Low Mass was celebrated by His Lordship at 8.30, with the Sacrament of Holy Communion. At this service, His Lordship took occasion to congratulate the parish upon the wonderful support they were giving their church and pastor, Rev. Dean M. A. Harrington.

At High Mass, celebrated by Dean Harrington, His Lordship delivered an able sermon, basing his remarks upon John XV. 26, and XVI. 4, in which Christ told his disciples that the Holy Spirit would descend upon them after His ascension, and they would be made fearless and go forth and give testimony of Him. At the conclusion of his sermon His Lordship conferred the sacrament of Confirmation.

Many Catholics from adjoining towns were present to welcome the bishop.

Melville Reade, of Cranbrook, was acquitted of the charge of manslaughter in the assize court last week. Reade's car hit a Chinaman, Mah Choo, on November the 9th, resulting in the latter's death, which was declared accidental.

At Cardston on Monday, Dorothy Costick, of Bellevue, notched up the following wins: first in girls under 18 (50 points), 60 yards in 7-3-10 seconds; first in 100 yards; first in broad jump (13 ft. 11 ins.); first in high jump; first in baseball throw (192 ft. 1 in.); winner of the Lyle Holland trophy for the ladies' grand champion of the field, placing the best of 143 entries to win it. Hugo Marcolin and Aleck Costick, both of Bellevue, also figured among the winners.

COWLEY'S VICTORIA DAY CELEBRATION

The Cowley annual Victoria Day celebration was another great success, about 2000 being present from all parts of the Pass and adjacent towns. It was well managed under a strong committee, and there was a varied program of baseball, softball, horse races and numerous other attractions and a big dance in the evening.

Coleman won the baseball tournament, and Fishburn the softball game. The Coleman band kept things livened up, and everybody seemed to have a good time.

The results of the races, etc., were as follows:

Five-eighths open—N. Northwood 1st, J. L. Jones 2nd. Time 1.07.
Half-mile Boys' Pony—J. Goodreau 1st, J. Percaveat 2nd. Time 1.03½.
One Mile Indian—Cecil Tallow 1st, Tom Three Persons 2nd. Time 1.57½.
Five-eighths Pony—J. Armstrong 1st, J. Goodreau 2nd. Time 1.08½.
Half-Mile Indian—P. Big Swan 1st, Tom Three Persons 2nd. Time 1.03.
One Mile Open—N. Northwood 1st, M. G. Sanford 2nd. Time 1.50½.
Relay Race (2 miles)—J. Crowhose 1st (only one finished). Time 6.15.
Half-mile Democrat Race—J. Crowhose 1st, Pat Bad Eagle 2nd. Time 1.08½.
Half-mile Saddle Race (3 heats): First heat—1st, T. Heap, 2nd, J. McLaughlin, 3rd, Thos. Willidige, time 57½; second heat—1st, P. Big Swan, 2nd, M. G. Sanford, 3rd, Tom Three Persons, time 56; final heat—1st, T. Willidige, 2nd, M. G. Sanford, time 59.
Starter, W. T. Eddy; Judges, H. Bosenberry, R. Cooper.
Baseball—Hillcrest won from Bellevue, Coleman from Blairmore; final—Coleman from Hillcrest.
Softball—Fishburn won from Rene's Red Men—Ex.

HERO OF FRANK SLIDE DIES

WINNIPEG, May 29.—George Reynolds, 62, prominent in Winnipeg building trades circles and formerly an outstanding athlete in the city, died Thursday. For the past 15 years he had been manager of the Trades Hall Co., Ltd.

Mr. Reynolds was a member of the commission appointed by the Manitoba government last December to review the provincial Workmen's Compensation Act. He was one of the few remaining holders of medals presented to those who went to the relief of stricken miners following the slide disaster at Frank, Alta., in 1901, when the town was almost wiped out. James Reynolds, of Pembroke, Ont., John, of Watrous, Sask., and Harry, of Calgary, are brothers. His widow and one son survive here.

FISHERMAN'S PARADISE

Midlandvale may yet attain its place in the sun as a fisherman's haven, for last Saturday evening John Powell made a great catch, when he landed a thirty-pound sturgeon with ordinary tackle. John was accompanied by his father, William Powell, and both were more than surprised when the fish, measuring three feet, seven and one-half inches in length, was pulled in with some real effort from the waters of the Red Deer river.

Messrs. Powell are both enthusiastic fishermen, but this is the first time that they have ventured out of the gold-eye class. In 1921 Mr. Thomas Whittle made the largest catch in local history, when he (also at Midlandvale) landed a 60-pound sturgeon, measuring five feet, ten inches.

Another fish story reported is that recently one person caught twenty-five gold-eyes in an hour, near Rose-dale, while some who fished all day, caught nothing—Drumheller Mail.

Tony Dezerzi, who several weeks ago sustained a broken finger will be back to work on Monday next.

WORK STARTS ON ALBERTA ROADS TO COST \$385,000

Speeding on in preparing for a tourist rush, the Alberta Public Works Department has commenced work on projects which will require an expenditure of about \$400,000.

The official announcement of this initial program was made lately by H. P. Keith, Deputy Minister of Public Works, in the absence of Hon. W. A. Fallow, minister of the department, who was in the east.

In launching this program, the department is responding to representations made by the Alberta Motor Association and others as to the need of improved highways in this province.

Grading, gravelling and oiling comprise this preliminary batch of road projects, distributed over various parts of the province.

The projects represent a total of 100 miles, taking in the Calgary-Banff highway for a distance of 31 miles from Morley to the park boundary which will be gravelled and oiled. The cost is estimated at \$70,000.

Revision of the Peace River highway for a distance of 12 miles near Lesser Slave Lake, a new route being necessary in view of flood water conditions which had to be contended with last year, will require an outlay of \$70,000.

Then there is the new highway to be graded and gravelled from Picture Butte, Lethbridge to Iron Springs, serving the million dollar sugar refinery in the Lethbridge Northern Northern district and estimated to cost \$103,000.

Grading and gravelling of the old railway grade on the Jasper highway for a distance of 31 miles from Styl, where work was commenced last fall, to Carrot Creek, is put down at \$143,000.

25,000 COPIES NEW ALBERTA TOUR BOOKLETS

Making a strong appeal to tourists in its pages which contain a wealth of information and are well and attractively illustrated, a new booklet has just been issued by the publicity bureau of the Alberta Government.

No less than 25,000 copies of this free booklet have been printed for distribution in Canada and the United States, and copies also are being sent to the old country, France and elsewhere. It has been praised by officials of the Alberta Motor Association.

Page after page of enthralling scenery, vast amount of data concerning the province and its resources, and general information for the use of visitors make the booklet something that will be treasured by its recipients.

Copies have been sent to points in Canada and the United States so as to meet the needs of organizations encouraging the tourist traffic.

A key highway map of Alberta, maps of bus routes, where to go when out for a delightful canoe trip and a statistical table of facts about this province, form new features of the 1936 booklet.

A striking three-color cover has been provided. One side shows where prairie and mountain meet, the majesty of the Rockies and the soft appeal of the foothills being well blended. On the other side is a picture of His Majesty King Edward VIII, and a view of his fine farm at Pekiako, Alta., something which should prove a rare interest to tourists.

A handy guide for the motorist, the booklet also contains sectional maps of Alberta highways. It also is made up so as to be mailed conveniently.

Making a strong bid for a record tourist movement to Alberta this year, the booklet was printed by the Metropolitan Printing Co., Edmonton.

The 1937 Alberta-Musical Festival will be held in Lethbridge.

GOLF! GOLF!

The ladies held their regular 18-hole competition on May 16th. The best score was turned in by Mrs. Clara McDonald, first round 53, second 57, gross 110, handicap 44, net 66, four strokes under par.

The next ladies' competition will be played on June 6th at 2.30 p.m., 9 holes.

On Saturday (tomorrow) the ladies of the Crow's Nest Pass Golf and Country Club are paying a visit to the ladies of Fernie Country Club. Cars will be leaving Blairmore at 9 a.m. Games start at 11 a.m., nine holes to be played before lunch and nine holes at 2 p.m. The Fernie course is in good playing condition, and everyone should make an effort to take the trip.

Owing to rainy weather on Wednesday, May 20th, the mixed foursome had to be postponed to Wednesday the 27th.

The men from Blairmore club had a real competition at Fernie on Sunday, the 17th. The Fernie club managed to come out with a win on the day's play. A return match is expected in a short time.

PROVINCE TO SHARE IN ONE MILLION

Voting \$1,000,000 for the elimination of grade crossings, the House of Commons last week gave impetus to the movement to bring about greater protection for motor and other vehicular traffic.

As the plan provides for a three-party agreement, the municipality, or applicant, the railway company and the Dominion contributing, the ultimate expenditure may be greatly in excess of the sum first stated.

The fund is to be administered by the board of railway commissioners. When an application is received, the board will order an inspection. Should the application be approved, the board then sends its recommendation on to the Minister of Railways whose concurrence with the board's report usually is automatic.

Hon. C. D. Howe, Minister of Railways and Canals, stated to the House, that the vote was supplementary to the ordinary grade crossing vote which was a statutory grant toward the removal of grade crossings.

The \$1,000,000 vote was to cover the government's share of applications to the railway board. If more money is required next year, the government will consider making a larger grant, said the minister, after private members had emphasized the need of a larger appropriation.

Last year, according to official figures, there were 242 railway crossing accidents in Canada, in which 114 persons were killed and 504 injured. These figures are not complete, however, as they represent only serious accidents and deaths reported to the board of railway commissioners.

Showing the need of still larger appropriations, it was stated in debate by members of the House that there are 30,532 unprotected railway crossings in Canada. In the past 20 years the Dominion has spent \$36,000,000 in improving crossings the major portion being in the great cities.

Last year a survey of grade crossing needs in this province was made by J. A. Stoneman, a member of the railway board. The result was that the provincial authorities prepared a list of suggested locations where crossing eliminations or improvements could be undertaken under the special fund provided for the purpose.

Word was received by Dorah Peressini last week, apprising him of the death of his wife, Mrs. Leschutta Maria Peressini in Italy. Besides her husband, residing here, she is survived by two children, son and daughter, in Italy. Mrs. Peressini was formerly Miss Pistor, sister of P. Pistor, who died in Blairmore some years ago.

"Serve the Church that the Church May Serve You."

BLAIRMORE UNITED CHURCH

Rev. Albert E. Larkie, Minister

Services Sunday next:
11 a.m.—SENIOR SCHOOL and ADULT BIBLE CLASS.
2 p.m.—JUNIOR SCHOOL.

Rev. A. S. Partington, B.A., Rector

10 a.m.—Sunday School.
7.30 p.m., Evening service.

THE SALVATION ARMY

Coleman, Alberta
Lieutenants Fitch and Pierce

Sunday services: Directory class at 10.30 a.m. Sunday school 3 p.m. Salvation meeting 7.30 p.m. Come and enjoy an hour in God's house.

Monday at 7 p.m.: Y. P. Legion.
Tuesday, 7 p.m.: Home League, all ladies are heartily invited to attend.
Friday, 7 p.m.: Young people's meeting.

DOUGLASSES WANT ACTION IN EDMONTON

The Alberta Provincial Douglas Social Credit association has issued the following letter which was sent this week to Premier Aberhart from its headquarters in Calgary.

"Since we have now definitely entered into an era of taxation, higher prices and less purchasing power, we wish to remind you that this is not the program on which you were elected.

"The duties you assumed by accepting the leadership of the elected representatives of the people, i.e., 'the abolition of poverty' have not been carried out, nor is there any indication that they will be carried out. As a matter of fact, you are doing the very opposite.

"At this time our association, in common with other Social Credit movements throughout the world, register our protest against any government claiming to be Social Credit, laying additional burdens upon the people.

"We wish to emphasize the fact, that it is incumbent upon you, and your colleagues, as a Social Credit government, to immediately lessen the burden of the people by:

1. Definitely establishing the right of the province to monetize its own real wealth.
2. The immediate lowering of taxes.
3. An immediate reduction in prices.

"These proposals were incorporated in the interim report of Major C. H. Douglas, and further substantiated in his recent letters."

A plan for cities to sentence traffic violators to a school to learn how to drive safely will soon be suggested by the President's Accident Prevention Conference at Washington, D.C. The plan has already been experimented with by Milwaukee successfully.

When the captain of the Queen Mary, the world's most luxurious liner, now crossing the Atlantic on her maiden voyage, stands proudly on the bridge of the vessel, his foot rests on a mat made by blind workers in the shops of the Cardiff Institute for the blind. The mat is a very special order, the name "Queen Mary" being woven into it.

WORLD HAPPENINGS BRIEFLY TOLD

Death in Quebec of Senator Emile Fortin lowered the Conservative majority in the upper house to 27.

Montreal recently celebrated its 294th birthday with the laying of wreaths at the foot of Maisonneuve's monument on Place d'Armes.

German editors henceforth must prove their "Aryan" ancestors and that of their wives back to the year 1800, according to new press regulations.

Officers and members of the crew of the German cruiser *Emden*, while in port at Montreal, paid tribute to Canada's dead soldiers and sailors in the Mount Royal and Cote des Neiges cemeteries.

An inspection of Emperor Haile Selassie's villa at Vevey, Switzerland, by Woldemar Mariani, Ethiopian delegate to Geneva, strengthened reports the fallen emperor would soon make Vevey his retreat.

Among those receiving degrees at the closing exercises of Mount Allison University, Truro, N.S., were: Bachelor of Arts, Miss Helen Winnifred Baines, Battledore, Sask.; and Bachelor of Science, Frederick White Matthews, Lenex, Sask.

The Edmonton Bulletin in a news page story said that Hon. Philippe Roy, formerly of Edmonton and now Canadian commissioner to Plattsburgh, may be the next Lieutenant-Governor of Alberta. The paper quoted "well-authenticated sources."

Representatives of all the public and high school teachers in Canada will meet in Saskatoon on Aug. 3, 4, 5, 6 and 7 for the annual conference of the Canadian Teachers' Federation. This announcement was made by J. H. Sturdy, secretary of the Saskatchewan Teachers' group.

The Red Wolf Of The Forest

Effort Is Being Made This Year To Lessen Loss From Forest Fires.

The most determined efforts to keep Canada as clear as possible of forest fires in 1936 have been instituted in all parts of the Dominion. Adequate supplies of fire pumps, canoes, railway speeders, and have equipped the fire ranger forces, and all is being made ready for the two unknown events: what the weather will be like and what the public will do. The latter element represents the 91 per cent. cause of all forest fires. Men with lighted matches and tobacco, settlers clearing their land, campers and their cooking fires—such innocent-looking human actions annually create a deadly harvest of ruined forests, dried up waterways and homeless families.

Nearly five hundred rangers on the "line of fire" across Canada are appealing to the public to join hands with them as protectors of the forests and streams during the present year. In many districts this friendly union of the rangers and those who travel in the woods for work or pleasure has succeeded in virtually outlawing the fire tend and has kept the woods green and growing, without a single bluish, for many years past.

Subsidized by Australia, an expedition will investigate marine life of the Great Barrier Reef, which extends 1,200 miles along the coast of Queensland.

For coaching rowing crews an Englishman has invented a megaphone which uses electricity to amplify words spoken into its mouthpiece.

People went to extremes in old days but extremes were not so extreme then as they now are.

Morning glories and potatoes are close kin.

A Great Accomplishment

Armless American "Boy Wonder" Wins Tap-Dancing Contest

Lupe Barato, armless "boy wonder" of McAllen, Tex., won first prize in a tap-dancing contest in San Antonio, adding another feat to his list of accomplishments.

Deprived of his arms when struck by a train at McAllen 18 years ago, Lupe has learned to do nearly everything for himself except to button his shirts and comb his hair.

He has rescued four persons from drowning and is considered an excellent swimmer and wrestler.

Oldest And Best Razor

Harry A. Dickson of Miles City, Mont., claims to have the most ancient and best razor in America. He has its pedigree and says it is 846 years old, that it was made in Sheffield, England, in 1790, was brought to this continent by Luther Bybee in 1792, and was handed down by him to his grandson and by the latter to his great grandson, Luther Bybee III.

Moose River Mine

Work Commenced In Draining Water From 141-Foot Level

Pipe lines laid down in the old "root-bog" shaft of the caved-in Moose River mine are now draining the water from the 141-foot level from which Dr. D. E. Robertson and Alfred Scadding were rescued by Nova Scotia miners.

With Deputy Minister of Mines Norman McKenzie, Felix Henderson, mine foreman, descended through the Reynolds shaft of escape. Henderson said he hoped to operate the mine again soon. The Reynolds shaft entrance had been boarded up to prevent persons from entering the hazardous tunnel dug by druggers.

At the 141-foot level where Dr. Robertson, Magill and Scadding sat on a little platform awaiting rescue, they found six feet of water.

"The rat hole is the same as when it was dug. It hasn't fallen in much," Henderson said.

Unique Cure For Fatigue

Marconi Uses Short-Wave Wireless Waves To Revive Energy

Sensor Marconi has revealed his cure for tiredness—the application of short-wave wireless rays.

In an interview at Rome he said: "Short waves applied to the human body do a lot of good. Safe and effective instruments for applying them have been invented and I apply them to myself when I am tired by my work."

"The rays of the short waves remove every feeling of fatigue from me and reinvigorate my energies."

"I find that the application of Marconitherapy does me a lot of good."

A Perfect Miniature

A perfect miniature violin, weighing less than two ounces, has been completed by Max Lang of Raymore, Sask., who makes a hobby of carving the tiny instruments. The model, complete with case, weighs 145 grains by itself, and in the case one and three-quarter ounces.

England has a movement to abolish auto speed limits at night.

Catapulting Lifeboat

The Inventor Demonstrates The New Automatic Safety Appliance

The successful 30-foot "flight" of a new automatic safety lifeboat impressed its inventor, Menotti Nanni, lately, that he predicted the next test leap would be from the George Washington bridge. A little later, he allowed that "the top deck of the biggest steamship" would provide sufficient height.

Nanni predicted that the catapulting lifeboat would make ships' davits obsolete. He said it eliminated the danger of escaping from a ship in case of fire, explosion, "or any other reason why anybody should want to leave a ship in a hurry."

A successful demonstration took place at New York recently. Nanni's boat was an ordinary unarmoured broad-beamed lifeboat. It was supported from the ground by two long rods about three inches in diameter, which fitted into two round chambers in the hull.

One end of the rods was imbedded in a metal turret. The boat was slid onto the other end of the rods so that the rods filled the chambers from stem to bow. A tank containing compressed carbon dioxide, which supplied the motive power, was built into the bottom of the boat. Near the bow was a lever for releasing the gas.

The gas when released immediately filled the chambers, forcing the boat off the rods and catapulting it into the water.

Applications For Pensions

Says Weakness In Administration Has Been Corrected

Mr. Justice Fawcett G. Taylor, acting chairman of the Canadian pension commission, told the House of Commons committee on ex-service men's problems, that on May 1, this year, there were 2,600 applications for pension still to be heard by the travelling quorums. A year ago the number was 4,500.

Weakness in pension administration had been corrected in the past two years, and he had not seen the force of keeping any diary with "problem cases," said the speaker.

Four extra commissions had been employed a year ago, and it was likely they would be required for another year. He himself dealt only with "problem cases," said Mr. Justice Taylor.

He did not favor "the policy" of travelling quorums giving immediate decisions.

Some questions were directed to him in connection with assessment of pension. This was made by the district medical examiner and forwarded to the medical adviser in Ottawa. Where these two differed the matter went to a board of two commissioners for decision. The travelling quorums had no authority to decide rates of assessment, said Mr. Justice Taylor.

Exclusively For Horses

There is a parking space in Bothwell, Ont., from which cars are barred. The town council leased a shady plot of ground, just off Main street, and announced it would be a parking place exclusively for the use of horses and buggies. Fluffers, it warned, were strictly prohibited.

Railway earnings in France are 11 per cent. lower than a year ago.

Simple Crochet--And You're All "Set"

Household Arts by Alice Brooks

PATTERN 5597

You'll be all "set" for Summer good times when you've crocheted your self this smartly matched belt and bag. Send for the pattern and find out why they are so "set." Those decorative ribs are knit a simple post stitch with open stitch between, and the gumpie or yarn is used, whichever you prefer.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Refreshed to Go

The liver should pump out two pounds of bile into your bowels daily. If this bile is not pumped out, it builds up in the liver as well. It takes those good, old "LITTLE LIVER PILLS" to get those two pounds of bile flowing freely and make you feel "up" and "spry." Examine and give these "LITTLE LIVER PILLS" to get the work of a normal liver done in no time. Ask for Carter's Little Liver Pills by name. Strikingly refuse anything else, like...

Largest Producer Of Wheat

Soviet Russia Replaces United States In Grain Production

The imperial economic commission announced in London that Soviet Russia has replaced the United States as the largest producer of wheat, oats and barley. The announcement was based on the grain crop report for the period of 1928-35.

The world carryover of wheat on August 1, 1936, probably will be reduced to 17,000,000 tons—a drop of nearly 50 per cent. from the 1934 figure of 31,000,000 tons, the report stated. Reduced acreage and drought were credited with responsibility for the drop.

The price of wheat in 1935 reached its highest level since 1930, due to a shortage of a gradual liquidation of the huge 1934 carryover, the committee found.

The report, chiefly a statistical analysis of the world production of wheat, barley, oats, corn and rice, said in 1934 the area of production for these crops was lower than the average from 1928-1933.

The United States was the chief sufferer in the general decline of trade in these five crops and wheat flour. It exported 5,646,000 tons of the six products in 1928 and only 547,000 tons in 1935, the report stated.

Kidnap Investigation

Says Secret Service Still Working On Lindbergh Case

The New York Sun says that "an organization of investigators and private detectives so secret its members use numerical designations, is actively continuing the investigation of the Lindbergh kidnapping case with the knowledge, if not the active support, of Governor Hoffman of New Jersey."

"The chief of the operatives," The Sun said, "known as 'K-4' in reports and telephone conversations, according to a former associate, is Harold C. Keyser, a former agent of the United States secret service."

"It was K-4 who led a party of investigators and a deep sea diver to the shores of Centre pond, near Becket, Mass., on April 1." The Sun said, two days before Bruce Richard Hauptmann was executed for the slaying of the Lindbergh baby.

The object of the search, The Sun said, was "a little black bag" which a resident said was carried by Dr. John P. Condon, the "Jafar" of the Lindbergh case, when he stayed at a cottage at the pond for some time in May, 1932.

Flax Crop Heavy

Approximately 6,200 acres of flax were grown for fibre purposes in Canada during 1935. From this area the production was seed 37,300 bushels; fibre 90,000 pounds, and tow 5,950 tons. The total value of the production of seed, fibre and tow in 1935 is estimated by the Dominion Experimental Farms at \$321,250.

Frogs that climb trees, burrow and try to fly inhabit Mexican tropical forests.

The eight muscles of the human jaw exercise a force of nearly a quarter ton.

SUNDAY SCHOOL LESSON

MAY 31

THE LAST SUPPER

Golden text: This do in remembrance of me. Luke 22:19.

Lesson: Luke 22:1-38.

Devotional reading: 1 Corinthians 11:23-29.

Explanations And Comments

At the Paschal Feast, Luke 22:14-18. "The Paschal Feast was a family feast, at which the head of the household always presided at the Paschal feast. Here, then, was something strange, something different: a group of men all away from their own homes. They were guests in the house of another man, and that man was not presiding; he had lent the room. Yet this was a family gathering, but it was a new family! Jesus was the Head. He took charge." He presided, as the father of the household always presided at the Paschal feast. Here was a new kinship. Away back in his ministry he had said one day, "Who is my mother, who are my brethren, and my sisters?" They that do the will of God. Here they were, that little group with him, the new family." (G. Campbell Morgan).

When Jesus said his disciples were seated for the meal, Jesus spoke to them with great intensity of feeling, saying, "With desire I have desired to eat this Passover with you before I suffer." We can readily understand his special wish to partake of that meal with his disciples. The occasion pointed back to a most memorable event which reminded them of the beginning of their life as the people of God, and in the institution at that time of the Lord's Supper he would link old and new together.

And he received a cup and gave thanks. "During the Passover feast the cup was circulated four times, each time having a symbolic value. The last cup was always the cup of joy. That is the only one to which Luke refers."

For I say unto you, I shall not eat it until it is fulfilled in the Kingdom of God. "Probably what Jesus meant was that although this was his last meal in the body with his disciples, after the resurrection he would be present with them in spirit every time they ate and drank 'in remembrance'."

The Institution of the New Feast, the Lord's Supper, Luke 22:19-20. Then Jesus took bread, and when he had given thanks he brake it, and gave to them, saying, This is my body which is given for you; this do in remembrance of me. By this act recall me to mind, even as the partaking of the feast recalled to mind their deliverance from Egyptian bondage.

And the cup in like manner after supper, saying, This cup is the new covenant in my blood, even that which is poured out for you. A sacrifice was usually offered in ratification of a covenant. "In the contrast of the old and the new, there is a reference to Jeremiah 31:31 as well as to Exodus 24:8." (A. E. Garvie).

Vimy Pilgrimage

Canadian Legionnaires To Be Guests Of French Government

Several thousand Canadian legionnaires, planning to make a pilgrimage of Vimy Ridge in July for the unveiling of Canada's national war memorial, were convinced there's no such thing as 50,000 Frenchmen being wrong.

Their conviction followed the invitation of the French Government to the Canadians to be guests of the government for five days after the unveiling of the memorial. It was accepted by Brig-Gen. Alex Ross, Dominion President of the Canadian Legion.

A communication received by Dr. O. D. Skelton, Under Secretary of State for External Affairs, said the French Government had offered to take charge of the pilgrims from Saturday, Aug. 1, until Thursday, Aug. 6.

Itinerary of the pilgrimage calls for the Canadians being in England Aug. 1, but the French Government is ready to transport them back to France. About 6,000 Canadians will go to Vimy and headquarters now seeks to learn how many will take advantage of the French offer.

Great Britain now has 90,000 persons with incomes exceeding \$10,000 a year.

"I wish I hadn't bought that CHEAP MUSTARD!"

"I am surprised at you. You know KEEN'S is the best."

"Well, I thought when I was putting up my pickles I could have some money by buying cheap mustard. But never again! Cheap mustard has not only the flavor, strength nor the keeping quality. I've learnt my lesson. It pays to buy the best—KEEN'S D.S.F. MUSTARD."

Made from seed grown in the Fens of England. Shells or hulls are removed and only the inner part of the seed is used. Superior grinding ensures the full mustard flavour.

In original tins for as little as 10¢

KEEN'S D.S.F. Mustard

COLMAN-KEEN (CANADA) LIMITED
1000 Anshart Street, Montreal, P.Q.

YOUR GARDEN

A brown or green stained window-box overflowing with gaily blooming flowers is within the range of almost every person. Here, lack of ground space does not matter. This sort of gardening is high intensive with many more plants to the square foot than would be grown under ordinary conditions.

This means that very rich soil should be used and in addition a fairly frequent application of chemical fertilizer during the season. The box must be of fair depth, at least seven inches of soil being available. Being exposed on all sides to drying winds, a thorough soaking once a day is advised. The window-box should be as long as the window and should be supported and arranged so that the top of it is almost flush with the window-sill. There must be holes in the bottom to provide drainage, and also a layer of gravel, cinders, broken crockery or similar material for the same purpose. If one can secure a supply of well-rotted manure put in at the bottom, and a top layer of rich soil. The box, which should be at least seven inches deep and from eight to twelve inches wide at the top, should be filled to within an inch of the top. Along the front, trailing plants such as ivy, Lobelia, Alyssum and similar plants are put in, with Petunias, Ageratums, Begonias, Fuchsias, Geraniums and any other plants especially recommended for this purpose further back. The plants should be in for a day or two should be provided until the plants get established. The same treatment and planting materials will be used with hanging pots.

Tender vegetables are those which have been grown quickly. Especially with such things as radish, carrots and beets, is slow growth disastrous as the roots become woody and filled with objectionable fibres. But this rule also applies to those things used for salads. On this account experts advise pushing growth with frequent cultivation, which in addition to checking weeds also conserves moisture.

Cultivation alone will often keep the vegetables going through a dry spell but if one could a few pails of water or an hour or two with the hose at this time will tend further aid. When the supply of water is not as convenient as it might be, it is a good plan, in laying out the garden, to plant those things most in need of extra moisture, such as radish, lettuce and celery, closest to the pump. Fertilizer is another way of hurrying growth and, therefore, assuring vegetables of the highest quality.

Teacher: "Your son is very backward in geography."

Father: "That does not matter. We have no money for travelling."

Dogs can't talk, but you always know what they mean. It is different with some men.

World consumption of wood annually is 50 per cent. more than the quantity grown.

THE SERPENT'S TONGUE

Sometimes I wonder if the people who take away reputations so carelessly have any idea of the terrible harm they do. There are the most heart-rending stories of broken lives, ruined homes, lost business opportunities and the utmost unhappiness brought about because somebody talked—perhaps with some foundation of truth, but distorted out of all recognition; perhaps in the spirit of mischief to make a good story and without any understanding of how gossip is like a fog, growing and deepening; perhaps in all malice and untruthfulness, inspired by jealousy. For the minute one pokes one's head above the crowd, there are always those who are ready to throw stones. Surely life is hard enough without supposedly civilized human beings making it more difficult for others.

Gossip is a more deadly menace to society than the murderer or the thief, for law can put a murderer to death and imprison a thief but against the whisperer there is little redress, and always great difficulty in tracing a story to its source and proving its origin.

One commandment is not more worthy of obedience than another and surely many have forgotten "Thou shalt not bear false witness against thy neighbor."

The Orientals have a saying "Ple no evil, hear no evil, speak no evil." What a wonderful world of peace and good will and happiness might exist if all obeyed that injunction!—Ex.

He who says what he likes hears what he does not like.

It is 727 feet from the foundation rock to the crest of Boulder Dam—only 65 feet more than the height of the famous Woolworth building.

Messrs. Thomas, Duncan, of the Greenhill hotel, and James Duncan, of the Michel hotel, left today by motor for Edmonton, to visit a brother who a few days ago suffered serious injury in a coal mine north of that city.

Because we made mention in our last issue to the fact that ratepayers were desiring to know why the Kaffury property should have changed hands for a consideration of around \$1400, we are told we should not have mentioned it. Well, if the matter can be fully explained by the council, our space is open for it, and at no cost to anyone but ourselves. The purchaser states he is to spend considerable money in improving the property.

The Aberhart government announces it will build 22 miles of new highway from Edmonton to Ponoka. In the House of Commons the other day Mr. Hayhurst, S.C. member for Vegreville, said: "Insanity in Alberta is one of the greatest problems we have to face." Well! Well! What do you know about that? Can it be possible that the U.F.A. government should have built that 22 miles long ago?—Ex.

Announcement will be made by the Alberta government within the next few days on courses of action to be taken in connection with the projected provincial debt refunding operation, the provincial savings certificates redemptions, the relief works program and the proposed issue of certificates as a new medium of exchange. Premier Aberhart said Monday: The Premier and his cabinet colleagues returned from the East on Sunday.

YOUTHS OF NOVA SCOTIA
ADOPT RESOLUTIONS

The following resolution adopted by the youths of Nova Scotia has a different flavor to some of those in the west, which are influenced by the Communists:

"Be it resolved that the Pictou County Youth's Convention go on record as advocating reform in our present educational system in order to give intensive training for citizenship in the lower grades and to give opportunity for vocational training. We also resolve that we seek to establish a library under the jurisdiction of the Pictou County Youth Council, from which our young people and others may obtain books on the important problems confronting the youth of today.

"Whereas recent events have caused many people to lose faith in the League of Nations, we resolve to confirm our belief in the League as the chief instrument through which we may establish world peace and would advocate its reformation.

"Be it resolved that the Pictou County Youth's Convention, held in Stellarton, May 8, 1936, place on record its unanimous belief that World Peace can only be established through the living of the Golden Rule and by the information of a Christian Council with a Christian Court, controlled by a Christian Code and maintained by a Christian Constabulary.

"That the Christian principle of 'Peace on earth good will toward man' be established firmly in the minds of the youth through education and fellowship, so that all be inspired with the Christian ideal of doing good to others as well as expecting good from others.

"That by personal contact and precept others may be won to the cause of World Peace and that all nations may 'seek peace and ensue it.'"

The duty of the newspapers is to comfort the afflicted and to afflict the comfortable.

Mrs. A. Morency had the misfortune to fall early in the week, sustaining a severe flesh wound when coming into contact with an axe blade. She was removed from the summer home at Crow's Nest Lake to the Coleman hospital for treatment. She has since returned to her home in Blairmore.

Mr. Muns, of Calgary, representing the Union Drilling Co., is busy with a crew of men at the Raven well in the Todd Creek district. The bit is down close to one thousand feet at present. The Raven property is but a short distance from the Mah Jon, and in a slightly lower strata.

Vincent Macchione, of Galloway, was convicted of the murder of Michael Hudock by an assize jury at Cranbrook after less than two hours deliberation. He was sentenced to hang on August the 12th by Judge Robertson. Hudock's frozen body with a face wound caused by a shotgun charge was found near the highway several miles west of Fernie on February 11th. Hudock was a resident of Natal.

A jolly party took place on Wednesday night, 26th, at the residence of Mr. and Mrs. Ed. Royle, when a few close friends of theirs met to celebrate their silver wedding. After everyone had enjoyed a sumptuous dinner, all the members of the Blairmore United church junior orchestra piled in unheralded and surprised them. They were led by Bill Dutton, junior. From then on things were not so quiet. They just kept the house in one uproar until about 11 p.m. Mr. and Mrs. Royle were recipients of some beautiful silver presents. In addition to the orchestra, the following were present: Mr. and Mrs. John C. Richards and Mr. and Mrs. R. M. Greenhalgh, Coleman; Mr. and Mrs. Tom Marks, Mr. and Mrs. A. Womersley, Miss H. A. Royle, Blairmore. Ed was heard to remark that the next twenty-five years should be easy, following a real marriage and a mock one. At this last one Mrs. Ed. promised to obey him for the rest of his natural life.

EDDIE, THE AD MAN

AV, A FELLOW FROM DENVER
"PLEASE TAKE ME HOME
IN COLORADO HIGHER THAN
PIKES PEAK! AND YET SOME
FOLKS SAY IT DON'T PAY TO
ADVERTISE!"

Diner: "Where's the menu?"
Waitress: "Down the hall, three doors to the left, sir."

Grocer: "Jimmy, I'm coming around to collect a little bill from your dad. What's the best time to see him?"
Jimmy: "Just before ma sees him."

Neighbor: "Where is your brother, Freddie?"
Freddie: "He's in the house playing a duet. I finished first."

Young Blairmore Bride: "Now, dearie, what will I get if I cook a dinner like that for you every day this year?"
Husband: "My life insurance."

Joe: "I see by this paper that 'come sections of the east a wife can be bought for \$5.00. Isn't that awful?"
Jimmy: "Well, I don't know. A good wife might be worth that."

Egg Pedlar (to wife): "Sufferin' snakes, Florabel, you sold the wrong eggs to that last woman."

Wife: "How so?"
Pedlar: "You sold her some of that lot we dated September 10th, and it's only September 1st now."

Mr. and Mrs. Tisnot were returning home one moonlight night after a strenuous evening.

Wife (exclaiming suddenly): "Oh, John, dear, what a lovely moon!"
John (absently): "Yes, how much is it?"

Brown: "I told my wife she needed a new hat yesterday."

Green: "You told her that? What did she say?"

Brown: "She said 'You sit down quietly, my dear, while I phone for the doctor.'"

"Did the plumber come down to inspect the pipes this morning?"
"Yes."
"What did he say?"
"He said there was nothing, the matter, but he could soon remedy that."

Caller at phone office: "These flowers are for the phone girls."
Supervisor: "Oh, thank you, sir, you flatter our service."
Caller: "Flatter nothing! I thought they were all dead."—Vancouver Province.

A little girl, attending the Anglican church for the first time, saw everybody kneel. "What are they going to do, mamma?" she whispered.

"Hush, dear, they are going to pray."
Girl: "What, with all their clothes on?"

Young Billy had just returned from Sunday school, when his mother asked him what the lesson was about.

"Gladly," he answered.
"But, who was Gladly?"

"Oh, Gladly was a cross-eyed bear," Billy said.
The mother, on further investigation, found that the lesson had been "Gladly, the Cross I'd Bear."

WILL HOLD HIM FOR A WHILE

A dapper little travelling man glanced at the menu, then looked up at the waitress who started to speak before he began. "Yes, it is," she answered, "and my name is Ella, and I know I am a little peach, and have blue eyes, and I have been here quite a while, and I like the place, and I don't think I am too nice a girl to be working in a hotel, and if I did I'd quit my job, and my wages are satisfactory, and I don't know if there is a show or dance in town tonight, and if there is I won't go with you, and I'm from the country, and I'm a respectable girl, and my brother is cook in this hotel, and he weighs two hundred pounds, and last time he wiped up this dining room floor with a fresh fifty-dollar-a-month travelling man who tried to make a date with me. Now, what will you have?"

The travelling man said he was not very hungry and a cup of coffee and some hot cakes would do.

THIS MADE ARTICHOKE

Why don't you carrot all for me,
Dear Sweet Pototote fair?
My heart beats faster when the sun
Shines on your radish hair.
Please don't turnip your little nose—
I've been so lonely, dear;
And if you say we canteloupe,
Then lettuce marry here.

Mars has two moons, Deimos and Phobos. The latter is so near the planet that it revolves completely around it in seven hours and thirty-nine minutes. This is less than one third the time of the planet's rotation on its axis, consequently Phobos rises in the west and sets in the east.

HE GOT A CALL

Two popular Truro clergymen during the past few days have received calls to other pastures: A parishoner of one of the clergymen remarked to the News, "Oh, my, I hope he will not go." And then she related this incident:

The great Doctor Theodore Cuyler, shortly after locating in Brooklyn, New York, received a tempting offer from another church. Before announcing his intentions he sought Divine guidance. He then went to the Bible for a message. He opened the Old Book and the first verse he read was in Jeremiah, "Wherefore gaddest thou about to change thy way?" The question was settled. Dr. Cuyler remained at Brooklyn. He stayed there for the rest of his life and performed a blessed ministry. —Truro News.

Summer Boarder: "But why are those trees bending over so far?"
Farmer: "You would bend over, too, Miss, if you wux as full o' green apples as those trees are."

Jimmie was absent from school one day. The next day he carried the following excuse to his teacher: "Please excuse Jimmie for being absent—he has a new baby brother. It was not his fault."

A model wife is one who will pay heed to a missing button on her husband's coat instead of chewing the rag about finding a blonde hair on it.

An exchange asks: Why should the Aberhart government be so interested in building twenty-two miles of new highway from Edmonton to Ponoka?

HOW BIG IS A MAN?

A man's no bigger than the way
He treats his fellow man.
This standard has his measure been
Since time itself began.

He's measured not by whims or creeds,
High-sounding tho' they be;
Nor by the gold that's put aside,
Nor ingenuity.

He's measured not by social rank,
When character's the test;
Nor by his early pomp or show,
Displaying wealth possessed.

He's measured by his justice, right,
His fairness at his play,
His squareness in all dealings made,
His honest, upright way.

These are the measures ever near
To serve him when they can,
For man's no bigger than the way
He treats his fellow man.

A little local boy, whose parents
have already presented him with a
complete outfit for fishing, wants to
know why he can't practice now.

Almost an inch of rainfall was re-
ported in some districts in Alberta
last week. South Alberta, however,
failed to get a much needed supply.

A Goderich bank clerk out of force
of habit is said to have addressed a
letter "Halifax, N.S.F." The young
man has not gotten confused be-
tween Nova Scotia and Alberta.
—Stratford (Ont.), Beacon-Herald.

Tony Deluca, tippie boss at the
Michel mine, sustained injury to his
back last week when he slipped from a
box-car ladder, falling on the tracks.
X-Ray examination disclosed that he
had the ninth vertebrae in his back
broken.

An epitaph in an Enosburg (Va.
cemetery reads: "In memory of Anna
Hopewell. Here lies the body of An-
na, who was done to death by a ban-
ana; it wasn't the fruit that laid her
low, but the skin of the thing that
made her go."

Dr. D. A. MacGibbon, former head
of the department of political econ-
omy at the University of Alberta, and
now a member of the board of grain
commissioners for Canada, is men-
tioned as a possible appointee to suc-
ceed Dr. R. C. Wallace as president
of the Alberta University.

District News

From Our Own Correspondents

BELLEVUE HAPPENINGS

Dante Pozzi, who had been student
at the Calgary School of Technology
and Art, returned on Friday to spend
the summer with his parents.

Mrs. George Cousens, of Penitton,
B.C., who had been visiting here with
her parents, Mr. and Mrs. J. McLean,
returned to her home on Sunday
night.

Mr. and Mrs. Wm. Beck spent the
week end in Creston, visiting with
Mr. and Mrs. J. A. Barbour.

Mr. and Mrs. J. L. Cousens and Mr.
R. T. Johnson returned Friday from
Calgary.

Monday, May 25th, dawned a clear,
bright day, with the whole town buz-
zing with activity. Junior sports oc-
cupied the morning from 10 to 12. At
1.30 sharp, the grand parade, headed
by the R.C.M. Police and the West
Canadian band, left the school
grounds and headed for the sports
field. There the main event of the
day took place, when Miss Stella Mc-
Donald, daughter of Mr. and Mrs.
Noble McDonald, was crowned May
Queen by Mrs. J. H. Farmer, of Blair-
more. Following the crowning event,
little Miss Doreen Shevels presented
the queen and her attendants with
bouquets of flowers. One hour and a
half of platform attractions followed,
when the Maypole and other appro-
priate dances were performed under
the leadership of Mrs. R. Upton. Little
Elaine Korman, of Coleman, delight-
ed the crowd with a tap dance. Field
events occupied the remainder of the
afternoon. A very successful and en-
joyable day was brought to a close
with a Major Boxes amateur pro-
gramme, prizes for which were won
by Ike Hutton, first with a comical
Scottish number; Miss Frances Cosstick
second with a musical saw number, and
Bob Emmerson, of Coleman, third
with a tap dance. During an inter-
mission, Mr. Chas. Emmerson present-
ed Queen Stella and her nearest com-
petitor, Miss Ellen Boyle with beau-
tiful wist watches. The girls in a
very able manner, thanked the peo-
ple for their kind support.

Mat. Wood was a week end visitor
to Calgary.

Rev. and Mrs. R. Upton left on
Tuesday afternoon to attend the Uni-
ted Church conference in Edmonton.

Mrs. F. McDowell, of Vancouver,
arrived here Monday night to spend
a short time with her parents, Mr.
and Mrs. A. Hallworth.

Mrs. Eddie Fisher and young son
Booby are Macleod visitors.

A very successful dance, given
under the auspices of the Bellevue
and District Horticultural, Industrial
and Poultry Society, was held in the
I.O.O.F. hall on Monday night, with
music by the Altermatt orchestra.

Mr. E. C. Cosstick, Dorothy and
Alec were Cardston visitors on Mon-
day, where Dorothy established two
new provincial records. She held the
record last year, and on Monday broke
her own previous record. She and her
brother also won several other prizes.

Charles Ritchie, Junior, Fred Rad-
ford and Albert Green were Water-
ton visitors on Sunday.

HILLCREST HAPPENINGS

Mrs. Mary Nykyforuk, aged 53,
passed away on Friday, following a
lengthy illness. She leaves to mourn
her passing her husband and three
sons. The funeral service was held
at the home and the remains were
laid to rest in the Hillcrest cemetery
on Sunday afternoon.

Mrs. R. Richards and son Gwyn, ac-
companied by Mrs. D. Grant and Mrs.
J. Dudley, motored to Calgary last
week end, returning on Sunday.

A bridal miscellaneous shower was
held in honor of Mrs. Sidney Price
(nee Miss Freda Gilroy) at the home
of Mrs. Turner on Friday evening.
Cards were played, prizes being won
by Mrs. E. Montegani and Mrs. W.
Williams. After supper, the bride
was presented with a basket of gifts,

for which she thanked the gathering.

Mrs. T. O. Davies and daughter
Mary, of Calgary, are visitors here.
Mrs. H. Henderson, Girl Guide
leader, is attending the Guide confer-
ence in Edmonton this week.

Mr. and Mrs. J. Mansell have jour-
neyed east to visit their daughter,
Mrs. L. Sherrett.

The baseball whist drive and dance,
held on Friday night, was a great suc-
cess. Whist honors went to Dora
Kenney, ladies' first; Lorna Balk-
will, second; Norman Packer, gent's
first; Mrs. J. Seaman, second. Supper
was served by the junior baseballers.
The wrist watch and Rolls razor were
won by W. Fisher and J. Blaskin, re-
spectively. Dancing continued until
2 a.m., with Band-its orchestra in at-
tendance.

The stork visited Hillcrest on Tues-
day, leaving a baby boy with Mr. and
Mrs. R. Anderson.

The Hillcrest baseball team won
second place in the tournament at
Cowley on Monday.

Mrs. J. Penn is a patient in the
local hospital.

The local Girl Guides, Rangers and
Brownies attended church service or
Sunday in full uniform, celebrating
the Guides' anniversary. Mr. Dut-
ton, of Frank, conducted a sing-song
of favorite hymns before the service
began. Rev. J. Wood conducted the
service. Mr. and Mrs. Dutton enrich-
ed the service with vocal selections.

Mr. and Mrs. W. Stevenson were
Vancouver visitors last week.

Miss Jean Cruickshank won first
place in the student teachers' piano
class in the Alberta Musical Festival
in Calgary on Friday. Lawrence
Fisher also stood first in violin under
16 years.

COWLEY HAPPENINGS

Mr. and Mrs. Harrison, of Clares-
holm, and Mr. and Mrs. Chester John-
son and children, of Arrowood, were
guests of Mr. and Mrs. Ambrose
Hornung the early part of the week.

Mr. and Mrs. Niven, of Lethbridge,
were week end visitors with Mr. and
Mrs. Archie Swart.

Mr. and Mrs. Wesley Matthews, of
Beaver Mines, spent the week end
visiting with Mr. and Mrs. H. E. Tus-
tlan.

Malcolm McMillan, Sandy Thomp-
son, Harry Gunn and M. A. Murphy
attended the celebration and banquet

of the 50th anniversary of the Mason-
ic Lodge at Macleod on Wednesday
afternoon and evening of this week.
They report a most enjoyable event.

Mr. and Mrs. J. R. Wood and Mr.
and Mrs. F. A. Tustlan motored to
Creston for a holiday trip over the
week end.

St. Joseph's church is looking much
fresher for the new coat of paint
given it this week.

Mrs. W. F. Blackburn and family,
of Fishburn, were guests of Mr. and
Mrs. M. A. Murphy the early part of
the week.

Word has been received from Hill-
crest of the birth of a son to Mr. and
Mrs. Anderson on the 27th. Mrs.
Anderson will be remembered as Mar-
jorie Porter.

George Porter and William Bennett
were business visitors to Calgary this
week.

The grasshopper menace is assum-
ing serious proportions throughout
this district, and the poison-mixing
station is working overtime with the
hope of getting control before the
pests get too large. Several machines
have been made in the form of a trailer,
from the back wheels and axles of
old cars, with the shortened drive-
shaft pointing upwards and carrying
on top a slatted disc which throws the
poison bait in a thirty-foot swath, fi-
red from an old oil drum mounted above
it. From this description, one of these
machines can easily be made with
small cost, and it appears that the

uniform spreading has much better
effect than the old method of hand
spreading. While this district is
shown on government charts as being
heavily infested with grasshopper
eggs, yet so far they have not shown
too active, and it is hoped that with
a possible heavy rain the damage may
be checked. Weather is dry and over-
warm for the season.

Many a car suffers injury by be-
ing hit by a telephone pole.

So many folks have in the last few
years been kicked in the abdomen by
horses, a move is on foot to have that
part of the human anatomy lifted.
Probably the same process as used in
lifting faces will be commissioned.
It'll mean money for the surgeons,
camera men and tailors, as well as
improvement in the appearance of the
human hulls.

FARMING IN A BIG WAY . . . Farmers like Imperial Oil
products. One Alberta farmer, who for years has used only
Marvelube Oil in his tractor, decided that the eight-year-old
machine would need new pistons and cylinder sleeves, but when
the machine was taken down it needed only new piston rings.
"I honestly think your Marvelube has had a great deal to
do with the life and performance of this tractor," he wrote.

TREASURE HUNTERS . . . When
prospectors and miners took to the
air, mining in Northern Canada began
its greatest development. A-1 pilots,
dependable aircraft and quality gaso-
line and oils make northern flying safe.
(90 out of every 100 miles flown in
Canada are travelled with Imperial
Oil products).

HIGHWAY BEACONS . . . Wherever you drive
you will see the 3-Star Imperial Sign. If it could speak it
would say to you, "I mark a place where everything will be
done to serve you well." Get the best out of your car with
Imperial Gasoline (3-Star or Esso) and Marvelube Motor
Oil. While you are in the station find out about Atlas Tires
and Atlas Batteries. If you need tires or batteries the
Atlas Brand will save you money.

Protection Of Wild Life

Not too soon, an awakened interest in conservation of wild life and particularly game birds and animals, fur-bearing animals and fish is noted on both sides of the international boundary. This renaissance, if it can be called such, is most timely in view of the probable early extinction of many important and indeed valuable animals and birds if present wasteful methods are to be allowed to continue very much longer.

It is true that governments on both sides of the line have entered into agreements for the protection of some of the best known game birds and a good many regulations have been adopted by state and provincial governments for internal protection of a much wider range of both birds and animals of economic value to mankind, but that alone is not sufficient to ensure perpetuation of a great heritage.

True conservation cannot be attained until the great majority of the farmers in the country and sportsmen in the cities, towns and villages constitute themselves unofficial game guardians and use their utmost endeavors to protect harmless wild life both by example and precept.

Many thousands of men in the prairie provinces are already doing this, but maximum results cannot be achieved until practically everybody is imbued with the necessity of conserving one of the greatest gifts of Nature to humanity.

Both in the United States and Canada lovers of the great outdoors have become thoroughly alarmed at the destruction which has taken place in recent years in the flocks of game birds, both those that inhabit the uplands and those which migrate twice a year from the one country to the other. A similar apprehension at the rapid diminution of herds and flocks of wild game animals is being frequently voiced, and not without justification, in magazines and newspaper articles both north and south of the 49th parallel.

In the United States, where misplaced governmental activities have resulted in large scale destruction of breeding grounds and natural sanctuaries under the name of rehabilitation, sportsmen and conservationists are mouthing the advisability of linking up all societies interested in the preservation of wild life in protest to the Federal government and to demand more rigid regulations and restrictions in the interest of fur, feather and hide, not alone for economic reasons but also from the viewpoint of the necessity for preserving the aesthetic features of the countryside.

It is good to note that this awakening desire to conserve the game birds and animals is being extended to include the song birds, for their importance in the balance of Nature is becoming more and more recognized. There was a time when the destruction of song birds was passed over as a matter of little or no moment, except by a few bird lovers.

This apathy towards the wilful destruction of the feathered songsters of woodland and open prairie is fortunately passing and to-day they are generally regarded as friends of man which should be protected. The majority of them it is now more widely recognized are the foes of insect pests which, if left to multiply without let or hindrance, would in a very short space of time render the world uninhabitable.

To-day not only are people generally refraining from killing song birds and are restraining youth from giving vent to a lust to kill, but are taking more active steps to protect their feathered friends from such natural foes as the crow and the magpie.

In all three provinces there are clubs in operation, formed with the destruction of the crow as the objective of the membership. While differences of opinion as to the menace of the crow have been voiced from time to time, the weight of evidence in the indictment of this bird as an adversary of the insectivorous song birds is overwhelming. One witness for the prosecution, Dr. H. G. Carson of Saskatoon found that 53 per cent. of the crow nestlings examined by him on behalf of the Fish and Game League last year had been fed eggs or young birds taken from their nests and that examination of more than 300 crow shots during the season by members of the league showed that 28 per cent. of the adult crows had eaten birds or eggs in the height of the nesting season.

In the light of this evidence the recently announced sweepstakes competition by the Saskatchewan Government aimed at the destruction of crows and magpies is regarded as a distinct forward movement in the program of preservation of songsters and game birds, and apart from the monetary reward offered for killing birds and crows will doubtless be heralded with general approval by Nature lovers.

Crossing Wheat With Rye

Experiments in crossing Chinese wheat and rye to obtain a plant combining hardness of rye and milling qualities of wheat are being conducted by the University of Saskatchewan. Plants obtained from the crossing process are claimed to retain some of the qualities of rye. The cross between the two grains is easily made, but results are not always constant.

Building Larger Zeppelin

Work has begun at Friedrichshafen on another Zeppelin—bigger and faster than the Hindenburg, which flew across the South Atlantic with 50 passengers and a crew of 40. The new Zeppelin will be almost as long as the ocean liner Queen Mary, will carry 80 passengers, and will average nearly 100 m.p.h. on long journeys.

Red has been made the color of the German post service, all mail boxes, trucks, collecting vehicles, and houses used being painted cadmium red.

In Canada it is unlawful to advertise a "cure" for obesity. 2192

Mining In Northern Area

Large Development Program For Northwest Territories This Year

As a result of the geological field program carried out by the Department of Mines last year, great activity in prospecting and mining development will be seen in the Northwest Territories during 1936. The Mining Recorder of the Department of the Interior at Cameron Bay, on Great Bear Lake, and Fort Smith, which lies just north of the Alberta-Northwest Territories boundary, report that while development work has continued on the older or main properties, preparations are being made by numerous interests for the carrying out of an extensive prospecting program this summer.

Prospecting activities will be chiefly centred in the Yellowknife area, also on the north and south shores of the east arm of Great Slave Lake including the islands. At least five major mining companies will have prospecting parties in this field and indications are that many individual parties will also prospect the area. As part of last year's geological field program 10,000 square miles were examined north of the northwest and east arms of Great Slave Lake, and the geological formation of approximately one-third of this area, which forms the southern part of the yellowknife Game Preserve, was found to be favourable prospecting ground for precious metals.

Prefers Life In Alberta

93-Year-Old Woman Does Not Like California

Although Mrs. H. M. Olsen is 93 years of age, she would rather live on her wheat farm near High River in Alberta, operated by one of her sons, than live in the fruit-growing lands of Arizona where she once resided, or with her two sons now living in California. "Grandma" Olsen showed little patience for people living in fruitlands. "What is fruit?" she asked. "It comes and goes, it doesn't last. It is wheat that is lasting. Wheat—bread to feed the world. I have always been glad I came to Alberta. It grows wheat."

Mrs. Olsen left her native Denmark in 1858, crossed to Salt Lake City immediately after her arrival in New York, and soon after was married to Mr. Olsen. She came to Alberta in 1905.

"I walked every step of the 1,100 miles between Omaha, Nebraska, and Salt Lake City behind a covered wagon," she declared.

Must Be Almost Perfect

Record Of American Cow Something To Marvel At

Honor is being paid to an American cow which has produced 35,000 pounds of milk containing 1,402 pounds of butterfat in one year. Figures have been compiled to show that this is equal to the milk consumption of more than 200 people in one day every day of the year, enough milk and cream to make 88,880 ice cream cones, and enough butter for eight families every day, provided they are not on relief rations.

Very interesting. This record will be cited as a mark for other cows to shoot at; the sort of cows that every dairy farmer should aspire to have in his herd. Nineteen tons of milk containing more than 36 per cent. butterfat! We call it cow-operation!—Stratford Beacon-Herald.

Many Tourists Expected

Peak Of 1929 Looked For By Travel Bureau

Tourist travel into Canada this year would reach the peak established in 1929, D. Leo Dolan, director of the Canadian Travel Bureau, predicted at Ottawa in an address at a banquet of the northern division of the Ancient Mystic Order of Samartians. "Our date we have received \$20 to be the waiting author. Reading on, he cried in rapture, "Carry the man another \$20." Proceeding still further into the fascinating work, he ordered still another \$20 be delivered.

But at length he lost all patience and exclaimed: "Go turn that fellow out of the house. If I read further I shall be ruined!"—Christian Science Monitor.

Maybe That Kind

An English motorist who owns one of those small cars which everybody makes jokes about was recounting an experience to a friend. "I had a bit of bad luck coming up from Brighton the other day," he said. "I ran into a trap."

"Is that so?" said his friend. "Any chance in it?"

In 1931, there was one automobile to every 56 persons in the world. In 1930, approximately 1,400 mail coaches left London daily.

Value Of Advertising

A Greater Force In Business To-Day Than Ever Before

Advertising today is a greater force in business than ever before. Those who have made a study of it, who have used it regularly, regard it as important as the product itself. The finest article will remain on a merchant's shelves unless potential buyers are told about it.

In a foreword to the 1936 edition of the McKim Directory of Canadian Publications, the agency whose name it bears makes some interesting observations on the value of advertising. These are the result of its long experience in this field of commercial activity. Commenting on the fact that an "easy-sending era" is not likely to return for many years, the foreword continues:

Actually, advertising to-day has a greater opportunity than it ever had. The continued emphasis on distribution, together with curtailment of unfair practices which served as short cuts to distribution—the growing insistence on standards in every class of merchandise—the public demand for evidence of value—the appearance of products embodying new scientific advances and calling for exposition—the importance to many industries of a more sympathetic and understanding public—these are some phases of the opportunity that awaits advertising to-day.

But to influence effectively the consumer in 1936, advertising must be soundly conceived and seriously planned. People won't buy simply because the form of the advertising intrigues or entertains. There must be the sincerity which produces conviction, as well as the emotional presentation that arouses desire.

Successful advertising is not a "now and then" affair. It has to be constant and it must be done well. It is one thing to create a demand and quite another to sustain that demand. This is where constancy in advertising pays large dividends. Finally, successful advertising requires that the purchaser be given his money's worth. Honestly, sincerity and persistency are three keys to the buyer's pocketbook.—Edmonton Journal.

May Visit Vimy

King Edward Expected To Attend Unveiling Of Canada's Memorial

The Havas News Agency said it was authoritatively informed King Edward would go to France July 26 to attend the unveiling at Vimy of the giant memorial to Canada's war dead.

The Agency said His Majesty would travel by aeroplane and that the occasion is regarded in Paris as a significant gesture of Anglo-French friendship.

King Edward is expected to land at Vimy from London on the morning of July 26 and to return home on the same day, according to these reports. President Albert Lebrun, Marshal Henri Petain, commander of France's Great War armies on the western front, and the new French premier will greet His Majesty, the Agency said.

The possibility the king would attend the unveiling of the Vimy Ridge war memorial, July 26, was being discussed in several quarters in London, although no official announcement has yet been made.

The king's presence would give him an opportunity of greeting nearly 10,000 of his Canadian subjects, and many of the soldiers with whom he served in France. It would also constitute his first journey abroad since his accession.

Tribute To Famous Poem

English Earl Showed His Appreciation Of Spenser's Work

When Spenser had completed his most famous poem, "Faerie Queene," he took it to the Earl of Southampton, great patron of the poets of that day. The Earl received the manuscript, read a few pages, and then ordered a servant to deliver £20 to be the waiting author.

Reading on, he cried in rapture, "Carry the man another £20." Proceeding still further into the fascinating work, he ordered still another £20 be delivered.

But at length he lost all patience and exclaimed: "Go turn that fellow out of the house. If I read further I shall be ruined!"—Christian Science Monitor.

Indian Building Divided

Lightning recently split a two-story "creaky" building in two from roof to cellar on the Indian reservation at Caughnawaga, Que. Reporting the strange accident, Police Chief John Jocks said the damage was estimated at \$500 but no one was occupying the house at the time.

New Lifeboat Invented

Can Be Sealed And Has Device For Renewing Air Supply

Victims of future marine catastrophes will find themselves comfortably saved within a sealed, non-sinkable lifeboat, if the invention of a reputable Catalan engineer proves practical.

The new lifeboat that cannot sink is capable of seating 40 to 50 persons. It can be launched from a sinking ship under all weather conditions and in less time than that required to remove the canvas from an ordinary lifeboat.

The inventor is Comte Salomeo Vila, the engineer who originated lifesaving buoys for occupants of submarines. This invention was demonstrated in Madrid before a group of experts, including officials of the Spanish ministry of marine. It is said that naval experts consider adopting the submarine buoy as part of the general equipment of submarines.

Salomeo Vila's latest invention, the non-sinkable lifeboat, is a launch 25 to 30 feet in length and capable of being closed so perfectly that neither air nor water can enter. The lifeboat is equipped with a motor and a special device for renewing the supply of fresh air.

The machinery for lowering the lifeboat after it has been occupied has been perfected by the same inventor. According to Salomeo Vila and to witnesses who have seen tests made off the coast and near the town of Mataro, the lifeboat can be lowered in all kinds of weather and it is absolutely non-sinkable. These reports add that the interior of the vessel remained perfectly dry during violent storms and that the air was renewed without admitting any water.

SELECTED RECIPES

CHEESE BRANS

- 1½ cups Quaker Natural Bran
- 1 cup Quaker Flour
- ¼ teaspoon baking powder
- 1½ teaspoon salt
- 6 tablespoons grated cheese
- 2 tablespoons shortening
- ¼ cup boiling water
- 1 egg

Little salt for sprinkling

Method: Mix dry ingredients thoroughly. Stir in grated cheese, melt shortening in the boiling water and add. Then add well-beaten egg. Roll very thin, using bran in place of flour. Sprinkle with salt, cut with cookie cutter. Bake in slow oven (not over 300 degrees) till browned with a cup of tea or as an accompaniment for salad.

Commander Of East Indies

Vice-Admiral Sir Alexander Ramsay Receives Appointment

Vice-Admiral Sir Alexander Ramsay has been appointed commander-in-chief of the East Indies station of the royal navy.

Sir Alexander is the husband of Lady Patricia Ramsay, daughter of the Duke of Connaught and honorary colonel-in-chief of Princess Patricia's Canadian Light Infantry. While in Canada when her father was governor-general Lady Patricia was known as Princess Patricia, but on her marriage in 1919 she was authorized by royal warrant to relinquish that title, the princess of Great Britain and Ireland.

Ancient English Home

Putting his domestic clock back 141 years, A. E. Richardson, professor of architecture at London University, is living in a Georgian house at Aspinhill with nothing more modern in it than in 1795.

Last year 832,015 books and newspapers and 8,000 pieces of Braille music were produced by the National Institute for the Blind in Britain.

Thieves Return Stolen Goods

To Keep Police Of Roumanian Town From Losing Jobs

The threat of the Roumanian government to fire the whole police force of the town of Buzau, Roumania, for incapacity broke the hearts of a dangerous gang of burglars. They sent by post to the chief of police a big parcel with stolen goods, accompanied by a letter stating that "We, the thieves of Buzau, do not want the poor police to lose their jobs and shall consequently transfer our activities to other parts of the country. Our principle is 'live and let live'."

The complaint of a member of parliament, M. Mocanu, whose elegant fur coat was stolen in Buzau, caused the ministry of interior to announce that if the coat was not found within 24 hours, the whole police force, including the chief, would be dismissed next morning, a huge parcel containing among other things, the fur coat of the member of parliament arrived at police headquarters.

Takes Over New Post

Earl Of Willingdon Appointed Warden Of Cinque Ports

The Earl of Willingdon has been appointed Warden of Cinque Ports, a position of considerable dignity, carrying comfortable emoluments and residence at Dover Castle. Lord Willingdon returned from India after five years as viceroy and it was announced the king had conferred a Marquessate on him.

As Warden of Cinque Ports, the former governor-general of Canada succeeds the late Marquess of Reading himself a former viceroy of India.

The Cinque Ports—originally Hastings, Romney, Hythe, Dover and Sandwich but now including other "ancient towns" of the south coast of England—were a league enjoying a number of ancient privileges.

Expensive Fuel

Coal is worth almost its weight in gold at Akavik, N.W.T., and is almost as scarce. Most of this Arctic outpost's coal supplies are brought in by airplane, and traders and trappers pay "sky-high" prices for it.

Seeking new uses for French resinous products, France is trying resin as a road surfacing material.

The first farm plows were made from crooked tree branches and worked entirely by man power.

FREE!
BOOK on BASEBALL!

Every boy and baseball fan will want this up-to-date book, "Baseball—How to Play It," by Frank J. (Shag) Shaughnessy, Manager of the pennant-winning Montreal Royals. Pitching, batting, base running—all the fine points of the game are explained and illustrated. Here's how to get it. Simply write for it below a "CROWN BRAND" or "LILLY WHITE" Corn Syrup label with your name and address and the words "Baseball Book" plainly written on the back—and your copy will be mailed to you right away.

CHURCHILL WARNS THAT ALL EUROPE IS RE-ARMING

London.—The House of Commons turned to foreign affairs again, Prime Minister Baldwin warning Italy that any interference on its part in Egypt and Palestine "will be considered as an unfriendly act—and treated accordingly."

Sir Thomas Inskip, minister for defence co-ordination, outlined the steps being taken by the government to prepare the war industries for any emergency, while Winston Churchill made his usual powerful contribution to the debate.

A Liberal motion to reduce the appropriation for the defence co-ordination ministry was defeated, 207 to 115.

"Under no circumstances," the prime minister declared, "will interference on Italy's part with the existing regimes in Egypt and Palestine be permitted. His Majesty's government have made it clear in unmistakable terms that they would regard as an unfriendly act any attempt at interference in the affairs of the Territory of Egypt, as an act to be repelled by all the means at their command."

Mr. Baldwin said the government, in consultation with Egypt, was considering the defence of the Suez canal "in view of the changed conditions caused by developments in the air."

"Preliminary conversations are at present being held in Cairo with a view to negotiation of a treaty of alliance between this country and Egypt, and questions concerned with the protection of the canal are being taken into account," the prime minister said.

Churchill warned that "all Europe is rearming and preparing its whole industry for war."

At the other end of the world, he said, "Japan is arming and is in the highest state of national exultation. All the old perils of a year ago are presented in aggravated form."

"The only new and prime factor is the grave antagonism that has grown up between us and Italy. And there will be the others if you are late." What will be the strength of the German army or air force in 1936 and 1939, for, broadly speaking, the effective result of your work only matures in the third year?

"The British public has no idea of the efficiency of German war production, of its enormous skill, nor with what marvellous smoothness it could be made to pour out an almost limitless flow of the most horrible weapons of human destruction ever placed in the unworthy hands of men."

Simple Funeral For Allenby

Ashes Placed In Warrior's Chapel At Westminster Abbey

London.—Ashes of Viscount Allenby, of Megiddo and Felixton, were placed by due ceremony in the warrior's chapel at Westminster Abbey. The body of the great field marshal, who led British troops in a spectacular and victorious campaign against the Turks in Palestine during the Great War, was cremated at Golden Green.

In accordance with Allenby's own retiring nature, there was no splendid ceremonial procession through London's streets to the abbey. Instead the casket containing the ashes was taken to its final resting-place in a simple hearse.

The king was represented by Field-Marshal Sir Philip Chetwode, and by his brothers, the Dukes of York, Gloucester and Kent. The Duke of Connaught, grandson of the king and a former Governor-General of Canada, also was represented.

The funeral service was conducted by Dr. Foxley Norris, Dean of Westminster. At the close the "Last Post" and the "Reveille" were sounded by buglers in the dean's yard.

Develop Tourist Traffic

North Bay, Ont.—Ontario could develop a \$200,000,000 a year tourist traffic from the United States into the gold-producing northern areas if a good road were built from the south to the north of the province, said G. G. McGeer, mayor of Vancouver and M.P. for Vancouver-Burrard, on his return from a trip to Kirkland Lake.

Death Penalty For Smugglers
Nanking.—Drastic regulations in an attempt to curb large-scale smuggling into North China, twice subject of protests from the Chinese government to Japan last week, were announced. One measure provides the death penalty for six classes of violators.

Union Proposal

U.S. Representative Suggests Union Between Canada And States

Washington.—A union between the United States, and Canada was proposed by Representative Sirovich (D., N.Y.), in a resolution providing for a joint senate and house of representatives committee of 10 to hold hearings on the plan with a similar Canadian group.

Sirovich contended both countries would derive great benefits from the union, naming among others solution of the unemployment problem, mutual use of ports and highways, elimination of tariffs, availability of United States capital for Canadian development, and greater strength in defence against any common enemy.

The committee Sirovich proposed would seek to determine the wisdom of the union, under which Newfoundland would enter the union under the name status as the States and Canada and Newfoundland citizens would become "American citizens with all the privileges of citizens of the United States of America."

Sirovich said the two countries together "would become the greatest English speaking nation in the world, covering the greatest amount of contiguous territory, with vast areas waiting for development." His resolution would authorize \$25,000 for the congressional committee.

He said that in any dealings with Canada, her dominion status must be borne in mind, but explained that the 1931 statute of Westminster provided "that the parliament of a dominion has full power to make laws having extra-territorial operation."

He said that in any dealings with Canada, her dominion status must be borne in mind, but explained that the 1931 statute of Westminster provided "that the parliament of a dominion has full power to make laws having extra-territorial operation."

Cut Bank Interest Rates

Canadian Bankers' Association Announces Change Effective June 1

Toronto.—S. H. Logan, general manager of the Canadian Bank of Commerce and president of the Canadian Bankers' Association, has announced on behalf of the association a reduction of one-half of one per cent in the rate of interest paid by chartered banks on savings deposits and deposit receipts. The change, effective June 1, reduces the rate from two to 1½ per cent. The statement follows:

The chartered banks announce that in view of the present low interest yields on Dominion treasury bills and other government securities, to the continued lack of demand for commercial loans, and to the increasing burden of taxation, a reduction of one-half of one per cent is necessary in the rate of interest paid on savings deposits and deposit receipts, and that the change will become effective June 1 next.

Arabs Still Hostile

Spread Of Anti-Jewish Feeling Feared In Palestine

Jerusalem.—The discovery of another Jew's body in the old quarry of the Holy City raised the recent toll of racial murders here to five as heavy British patrols stood guard along the Jerusalem-Haifa railroad and highway to prevent sabotage. All convoys were escorted by troop contingents in military trucks. Roads leading from Jerusalem to Jaffa were similarly protected.

An attack by 1,000 Arabs on the funeral of Karl Briringer, a slain Christian, led authorities to fear Arab anti-Jewish feeling was spreading to include all foreigners in Palestine.

The Arabs invaded the Catholic cemetery where the burial service was in progress, seized the coffin from the burial party, and held it until the arrival of a police squad, when they abandoned it and fled.

Will Ruin Voices

Says Baritone Classes 'For Young Vocalists Should Not Be Allowed'

Calgary.—Tone and baritone classes for singers under 19 years of age should not be allowed, declared Arthur Cranmer, of London, England, adjudicator at the Alberta musical festival here.

"It is wrong that these young men should be singing these songs at their age. They will ruin their voices," the adjudicator said. "There were so few good singers that it was a pity to spoil the few who did possess good voices."

Relief Works In Quebec

Montreal.—A program of relief works will be substituted for cash relief in Quebec province effective June 1. Municipal Affairs Minister Bouchard announced jobs will be absorbed as relief projects get underway.

National Film Society

A. Permanent National Executive Is Appointed

Ottawa.—The National Film Society of Canada, organized last year to promote study, appreciation and use of motion and sound pictures as educational and cultural factors in Canada, announced appointment of a permanent national executive and disclosed that Lord Tweedsmuir had consented to be honorary president.

Executive officers are: President, Sydney Smith, president of the University of Manitoba; vice-presidents, Charles G. Cowan and Mr. Justice T. Rinfret, both of Ottawa; secretary-treasurer, Donald W. Buchanan, Ottawa. Among the directors are: E. A. Corbett, Edmonton, and Dr. D. O. Evans of Vancouver.

The society now has branches in Montreal, Ottawa, Toronto and Vancouver.

STUDY LETHAL GAS CHAMBER METHOD OF EXECUTIONS

Ottawa.—A parliamentary committee will be established next session to consider the advisability of substituting a lethal gas chamber for hanging in murder cases. Hon. Ernest Lapointe, minister of justice, advised the House of Commons.

Discussing the Blair bill to make the change now, the minister said he had reports from five American states where the gas chamber has been used indicating it was more humane and less costly than hanging.

Conservative Leader R. B. Bennett was opposed to any change in the manner of executing murderers, believing hanging was the best deterrent ever demonstrated.

This view did not seem to be general, J. S. Woodsworth, C.C.F. leader, and H. E. Wilton (Cons., Hamilton West), calling hanging a barbarous custom that had outlived its usefulness.

The lethal chamber, Mr. Lapointe said, was used in Nevada, Arizona, Colorado, Wyoming and North Carolina with a central execution depot in each state.

The humaneness of the lethal chamber was a debatable point, the minister admitted, "but in those states the officials claim it is by far the most humane and efficient."

Since the Blair bill was introduced, Mr. Lapointe had discussed it with provincial attorneys-general, but they seemed reluctant to express opinions. Most of them, however, seemed to favor a change.

C. P. Flaxton, an official of the justice department, visited all five states, Mr. Lapointe said, and prepared a report which "I must say is rather favorable to the chamber, but this would involve such a radical change in what is the present law and practice in Canada that I am of the opinion this matter should be well studied further and investigated until the next session of parliament until public opinion in this country can express itself as to what we should do."

If the gas chamber was adopted there would be one central execution place, Mr. Lapointe said. There might be one for the Maritimes, one for Quebec, one for Ontario and one for the west.

DID THE FAMOUS BOX REVEAL SECRETS?

The alleged leakage of Budget information, which has plunged British political circles into an uproar, may mean the resignation of "Jim" Thomas, famous National Labor leader. As a result of the alleged leakage, Thomas' son and a great friend are alleged to have made a large profit at the expense of Lloyd's. At the left is Neville Chamberlain, British Chancellor of the Exchequer, leaving his home to walk to the House of Commons. In the famous dispatch case was the budget, information about which, according to Mr. Chamberlain, has "never leaked out." At the right is Mr. Thomas, whose political future has suffered a severe jolt.

SEERS LEADERSHIP

Col. George A. Drew, K.C., former Ontario Securities Commissioner, who has announced his candidature for the Ontario Conservative Party leadership.

Illicit Drug Traffic

League Is Advised That Japan Is Shipping Drugs To Canada

And U.S.

Geneva.—Morphine, heroin and cocaine manufactured "by permission of the Japanese ministry of interior" are being offered in unlimited quantities to dope rings in the United States and Canada by Japanese manufacturers, the League of Nations' advisory committee on traffic in opium was informed.

Reports from the United States and Canadian governments prove the existence in those countries of organized rings importing narcotics from Japan, the committee was told. The reports included the name and address of the principal Japanese source of supply and correspondence in which the Japanese merchant allegedly informed his American and Canadian customers how to smuggle the narcotics into their countries.

The Tokyo government has been supplied with complete details of the illicit traffic, the reports said.

The Canadian government report indicated the quantities of illicit narcotics seized in Canada during 1935 were slightly less than in the previous years. A total of 163 persons were convicted on narcotic charges last year compared to 226 in 1934, the report said. Of the persons convicted, 69 were deported as undesirable aliens after serving prison sentences.

Canada's Naval Defence

Coastlines Should Be Protected Opinion Of Navy League Official

Toronto.—Public opinion in Canada should be aroused to what he called the necessity of protecting coastlines and focal points of trade routes, John Goodwin, of Welland, president of the Ontario division of the Navy League of Canada, told the annual meeting of the organization.

"The manner in which the problem of naval defence is ignored generally by the people of Canada is amazing in the extreme," he said in annual report.

"Canada must surely take stock of the rising ambitions of several struggling peoples in certain exceedingly congested countries of the world."

Empire Migration

Plans For Settlement Of British Families In Manitoba

Winnipeg.—Representative of the Empire Migration Settlement group have asked the Manitoba government for an appointment to discuss settlement plans it was announced at Manitoba government offices.

Word from London said the group were informed the Manitoba legislature supports plans for settlement of British families here. P. O. Schonegevel, chairman of the group, is on his way to Manitoba in connection with the scheme.

TARIFF BOARD TO KEEP WATCH ON THE PRICE OF GAS

Ottawa.—The tariff board will be instructed to maintain a watching brief over the gasoline industry in the light of tariff changes announced in the budget, and particularly to keep track of price changes, Finance Minister C. A. Dunning told the House of Commons.

"I propose to ask the tariff board," he said, "to keep in touch with developments which follow the changes in duty proposed in the petroleum schedules and particularly to keep informed as to the price situation and as to the performance of the major companies in rectifying the uneconomic conditions of distribution and to study the relation of railway and other transportation to the petroleum industry."

"The changes proposed in the present (petroleum) schedules seem to call for price adjustments in all parts of Canada excepting possibly the populous parts of Quebec and Ontario. If the results which we anticipate do not follow then we will expect to be able, on the information supplied by the (tariff) board, to come to proper conclusions as to the course which should be pursued."

The minister made his announcement as a climax to a short but stormy discussion of crude oil duties and the gasoline industry as a whole.

WANT LEGATION GUARDS OUT OF ADDIS ABABA

Plans For Settlement Of British Families In Manitoba

London.—An authoritative source said the British and French governments have been in consultation following Italian "hints" that their legation guards in Addis Ababa should be withdrawn. The two governments, it was said, are seeking to determine what course they should pursue.

The impression was gained that the Italians considered themselves in control of the situation in the Ethiopian capital and able to maintain safety for foreigners. Legation guards were considered superfluous.

The British and French have been studying whether the conditions in Addis Ababa can be considered safe.

The British have made it clear that, even should they withdraw their legation, they would consider the step to be taken without political implications as regards the recognition of Italian sovereignty over Ethiopia.

Meanwhile, the British have ordered searching inquiries into the mysterious disappearance of L. J. Bonner, a nursing orderly attached to the British ambulance unit in Ethiopia.

France refused to withdraw her sturdy colonial troops from Dire-dawa, key point on the Italian-occupied Franco-Ethiopian railroad.

Official French sources said the 160 colonials would continue to guard the Dire-dawa shops on the French-owned railroad, despite a request from Italy that they withdraw.

Railroad officials also declined an Italian request that they permit the shipment of 840 tons of provisions from Djibouti, French Somaliland, to the Fascist troops in Addis Ababa. The request was turned down on the ground the road's war-time neutrality still is in force.

The minister made his announcement as a climax to a short but stormy discussion of crude oil duties and the gasoline industry as a whole.

He said the majority of skimming plants in the past had been guilty of defrauding the government of customs duties in the past and already had paid over \$50,000 in penalties. With the exception of a few owned by farmers, the skimming plants of the west were a "racket" and, judging from profits, a financial gold mine.

Canada is dominated by a gasoline monopoly, Gordon Ross (Lib., Moose Jaw) said when he started the discussion. United States companies in the Canadian field charged higher prices than in American markets.

Prompted by a change in gasoline duties, the Saskatchewan member predicted the big refiners would attempt to raise freight rates on high-grade crude and put small skimming plants out of business.

Mr. Ross said he had no particular objection to the budget change in petroleum tariffs. It placed a one-half cent duty on high-grade crude and was aimed at crude or gasoline which was "spiked" by a small percentage of crude oil.

Small skimming plants used the high-grade crude and could be put out of business by freight increase applications to the railway board. "If any such thing is done, then I or some other person will go to the government for a reduction on freight rates on all petroleum products, at least in western Canada," he declared.

Mr. Ross quoted figures to show gasoline could be imported at Halifax or Vancouver, all duties and freight and handling charges paid and sold below current prices.

T. C. Douglas (C.C.F., Weyburn) made the charge the government was trying to force small skimming plants out of business by the removal of high-grade crude from the free list. The tariff change was "the hand of the government but the voice of the big oil companies" and he moved to replace high-grade oil on the free list. This motion eventually was ruled out of order by Deputy Speaker Sanderson.

This charge was resented by the finance minister who indignantly denied he was acting as an agent for the big oil companies.

Many of the skimming plants were started by farmers and small businessmen in the west, Mr. Dunning said, but at last were sold to a holding company known as Petroleum Securities, Limited. To his knowledge this was the most profitable business in Canada.

The one-half-cent duty will not put any honest skimming plant out of business, he said, but it "will absolutely end the business of bringing in doctored crude oil or spiked crude."

Candidate For By-Election
Victoria.—Former Premier B. F. Tomin has accepted the invitation of the Victoria Conservative Association to contest the Victoria federal by-election June 8. The Liberal and Co-operative Commonwealth Federation parties, who will contest the by-election, have yet to announce their candidates.

Finding Jobs On Farms
Toronto.—More than 2,000 men have been taken from relief rolls of Ontario municipalities and placed on farms, Hon. David A. Croll, minister of welfare, said. Before the summer is over the department expects to find 15,000 jobs, Mr. Croll said.

German Cruiser Leaves

Montreal.—The German cruiser Emden sailed out of her berth at Laurier Pier, and started down the St. Lawrence River, en route to Spain, on the last leg of a world cruise after a six-day stay in Montreal waters.

WANT LEGATION GUARDS OUT OF ADDIS ABABA

London.—An authoritative source said the British and French governments have been in consultation following Italian "hints" that their legation guards in Addis Ababa should be withdrawn. The two governments, it was said, are seeking to determine what course they should pursue.

The impression was gained that the Italians considered themselves in control of the situation in the Ethiopian capital and able to maintain safety for foreigners. Legation guards were considered superfluous.

The British and French have been studying whether the conditions in Addis Ababa can be considered safe.

The British have made it clear that, even should they withdraw their legation, they would consider the step to be taken without political implications as regards the recognition of Italian sovereignty over Ethiopia.

Meanwhile, the British have ordered searching inquiries into the mysterious disappearance of L. J. Bonner, a nursing orderly attached to the British ambulance unit in Ethiopia.

France refused to withdraw her sturdy colonial troops from Dire-dawa, key point on the Italian-occupied Franco-Ethiopian railroad.

Official French sources said the 160 colonials would continue to guard the Dire-dawa shops on the French-owned railroad, despite a request from Italy that they withdraw.

Railroad officials also declined an Italian request that they permit the shipment of 840 tons of provisions from Djibouti, French Somaliland, to the Fascist troops in Addis Ababa. The request was turned down on the ground the road's war-time neutrality still is in force.

Empire Air Service

Move Is Made By British Government To Speed Up Schedules

London.—The House of Commons passed a financial resolution dealing with long-term subsidies for the empire's air routes. The vote was 259 to 122.

"If our proposals mature," said Sir Philip Sassoon, minister-secretary for air, in introducing the resolution, "Britain will get record value for her money." He said the scheme was designed to provide for a "striking acceleration" of schedules; an increase in the frequency of the services and the carriage of all first-class air mail at the rate of three halfpence (three cents) per ounce.

Imperial Airways, Sir Philip told the house, was aiming at a 2½-day schedule to West Africa, 4½ days to South Africa, six or seven days to Australia, 2½ days to India and 4½ to Singapore. He said the South African and Singapore services already had been duplicated.

Warlike Spirit

Will Intensify Moves To Make Italy Self-Sufficient

Rome.—The directorate of the Fascist party decided to "intensify" moves to make Italy self-sufficient through "permanent and irrevocable" acquisition of products from countries which participated in League of Nations sanctions, but the moves were not defined.

The directorate also ordered all able-bodied Fascists between 21 and 55 years of age to submit requests to enroll in the Blackshirt militia to demonstrate their "solidarity with the party's warlike spirit."

Candidate For By-Election

Victoria.—Former Premier B. F. Tomin has accepted the invitation of the Victoria Conservative Association to contest the Victoria federal by-election June 8. The Liberal and Co-operative Commonwealth Federation parties, who will contest the by-election, have yet to announce their candidates.

THE BIG INTERESTS

IN LIFE INSURANCE ARE THE POLICYHOLDERS AND BENEFICIARIES.

In Life Insurance the "Big Interests" are the millions of Canadian policyholders and beneficiaries—men, women and children who share in the protection made possible by individual thrift and foresight.

The concern of the Life Insurance Companies in Canada is to safeguard these policyholders and beneficiaries. Their accumulated savings, amounting to more than two billion dollars, must be invested wisely to obtain the greatest yield consistent with safety. Every promise made in Life Insurance policies must be fulfilled completely and promptly.

Canadian policyholders may feel justly proud of the wise and careful administration of their trust funds. Even in the darkest days of the depression, Life Insurance Companies met every obligation promptly and fully—bringing financial security to thousands of Canadian homes.

There is added satisfaction in the fact that the investment of Life Insurance funds has helped to build Canadian homes, schools and hospitals—and develop agriculture, industries and public utilities. Thus, the whole Dominion benefits from Life Insurance.

In the future, as in the past, Canadian policyholders and beneficiaries must always be the "Big Interests" of Life Insurance.
